**Subject:** OR CZARA Findings Document

Hi Everyone – I wanted to let you all know that the Oregon CZARA findings went out on Friday, January 30. We took a disapproval action on Oregon's CZARA program. We also acknowledged in the press that Oregon has made a lot of progress in their nonpoint programs, we're optimistic that they can get to an approvable program, and we'll be working closely together. Dennis and Will Stelle (NMFS) have been talking with Dick Pedersen (ODEQ) and Richard Whitman (OR Governor's office) on next steps at the high level. We're talking with ODF and other state agencies at lower levels.

You can look at the link below and go to the Oregon findings document 1/30/15 and the response to comments. The Federal Register Notice is still being processed.

Thank you again for all the work that everyone did to flesh out the issues, sort through our different program issues, and write and comment on these papers. I really appreciate the frank discussions and comments that everyone gave on quick timeframes. Much thanks to all of you! As we move forward, feel free to let me know if you'd like to be involved. - Jenny
